About This Course

The CPC50320 Diploma of Building and Construction (Management) is an AQF Level 5 qualification for people moving into site management, project supervision and senior construction roles. It covers managing construction projects, contracts, costs, contractors and compliance across residential and commercial building work.

What You Will Learn

- Building codes and standards for Class 1 and 10 and Class 2 to 9 Type C buildings
- Contract selection, preparation and administration
- Estimating and cost control on complex projects
- Selecting and managing contractors
- Legal obligations of a building and construction contractor
- Business finances in building and construction
- WHS and project risk management
- Supervising and managing construction work
- Environmental management and technical and legal reports

Units of Competency

15 units: 8 core and 7 elective. Unit codes and titles per training.gov.au (CPC Training Package, qualification Release 5).
